

RAISED FLOOR STANDS

Features:

- ESS Raised Floor Stands are custom built to customer specifications to match any raised floor height and cable entry requirements.
- Heavy gauge welded structural steel construction.
- Designed with leveling feet that allow floor stand to be anchored to base floor.
- Floor stands are designed to allow side by side or back to back installations.
- Seismic designs are available upon request.
- Anti-vibration Pads available for CRAC and CRAH units.
- 6 stage pre-treatment and powder coat finish provides excellent protection when used with air conditioning units.

Compatible With:

- UPS
- Battery Cabinets
- Landing Cabinets
- Maintenance Bypass Panels
- PDU's
- RPP's
- CRAH Units
- CRAC Units
- Other equipment
